Our Statement

We are very pleased that the data shows that the company has a minimal gender pay gap with women earning slightly more on average than men. Our company policy states that both men and women will receive equal pay on all roles which is reflected in these results.

There has been consistency in our results for a number of years now and although the results of our gender pay gap analysis are extremely positive, we will not become complacent. We will keep our own performance in this area under ongoing review and seek to continuously improve the experience of all of our staff in respect of equality, diversity and inclusion.

I confirm that the information in this statement is accurate.
