

Stadium
Keeping you safe

Stadium has one goal in mind... keeping you safe.

For more than ten years, Stadium have performed on the world's biggest stages, ensuring that as audiences have been entertained, they have shared experiences in a safe and secure environment.

Since the start of the COVID-19 pandemic and the government restrictions affecting venues and stadia, we have re-assigned our staffing resources to support the national effort.

The benefits and added value from working in conjunction with Stadium include:

- Bespoke recruitment, vetting and selection processes to suit each clients needs.
- COVID-secure procedures, including online interviews, eLearning and virtual training, and automated scheduling.
- Streamlined vetting / DBS processes meeting BS7858 (2019) standards.
- In-house eLearning platform providing a suite of bespoke training modules prior to deployment, including COVID awareness training.
- Virtual inductions and team building, preparing your team for deployment.
- Flexible shift planning and resourcing function to meet your needs across multiple sites and requirements.
- Automated scheduling managed by our 24/7 Staffing team, accessible to our workforce and clients by telephone and email.
- Fully auditable reports supported by virtual timesheets with GPS tracking and time stamps.
- All supported by an experienced Senior Management Team and a number of specialist systems.

We Are Stadium

Roles we provide include:

- Meet and Greet Customer Service Officers
- Queue Coordinators
- Registration Assistants
- Self-Administered Test Assistants
- Processing Operatives
- Results Recorders
- Supplies Coordinators
- SIA Security Operatives
- Car Park Management Operatives
- Traffic Management Operatives

In July 2020, Stadium quickly mobilised support services to multiple COVID-19 test centres across the Midlands and London. Since then we have scheduled and deployed over 250,000 hours of work at LTS, RTS and MTU sites.
